COMPANY OVERVIEW

1

OUR STORY

Lappy Maker was founded in 2018, and we have accomplished so much over the years. To create a world where Laptop owners can get quality repair services at their doorstep has always been our goal.

Our Founder and **CEO Shivani Tyagi** was inspired to start this company by her own experience of challenges she faced when searching for a reliable alternative of an authorized service center.

Lappy Maker - Affordable World-Class MacBook Repair Services

With Lappy Maker, MacBook owners have an alternative to the frequently pricey authorised service centres. Lappy Maker offers quick, inexpensive, and high-quality MacBook repair services at your home without any visiting or diagnosis fees. Getting a MacBook fixed can be an unpleasant process for owners. People have less choice but to visit pricey authorised service centres due to the local repair businesses' lack of transparency and quality in their services. Shivani and Antima Tyagi developed Lappy Maker in September 2018 to address this issue.

Lappy Maker: One-Stop Destination for Affordable Laptop Repair Services

Lappy Maker: One-Stop Destination for Affordable Laptop Repair Services
Lappy Maker provides complete MacBook and laptop repair services to customers where they can schedule technician visits for a particular time slot and avail free pick & drop at the

convenience of their home and office. After sales service is such a big factor for MacBook and laptop owners in India. A product can be as brilliant as it wants on its own, but the cost of ownership, quality of service with availability of spares, and the peace of mind associated with it is a big draw for the majority of buyers.
